FIRST SEMESTER 2018/2019 ACADEMIC SESSION
BACHELOR OF LAWS (LL.B) DEGREE EXAMINATION

REPRODUCTIVE RIGHTS AND SEXUAL HEALTH LAW II (PPL 208)

Attempt Four Questions
Time Allowed: 2 ½ Hours

1. Mr. and Mrs. Heritage have been referred to Dr. Stuart of BRM, Fertility Hospital. He has agreed to carry out an Assisted Reproductive Technology procedure on them to see if they will be lucky to conceive after the process. If the procedure is successful, Dr. Stuart's Research results will become patented and celebrated as a much awaited contribution to Biomedical Research. Advise Mr. and Mrs. Heritage on the ethical and legal issue involved if they participate in such procedure.

2. "Social Justice Lawyering as a panacea for protecting Reproductive Health Rights" Discuss the veracity of this statement drawing from any field experience or community outreach you may have been involved in.

3. Mrs. Coker has just delivered a third baby girl. She is desirous of putting a stop to child bearing as she had a really difficult time with this last birthing experience. The medical team has advised that she employs a method of contraception at her next visit to the hospital. She asked her husband to come with her but he insists that contraception is not a man's concern besides, he still wants her to give birth to a boy. Highlight the Reproductive rights violations or probable violations that you can identify from the above scenario.

4. Commercialization of Reproductive Materials (sperm and egg donation) and services is one of the issues of Assisted Reproductive Technology. Discuss the other ethical issues that have necessitated and provided a justification for a legal regulation of ART in Nigeria.

5. Fully examine Reproductive Rights as Survival, Developmental, Protection and Participation Rights.

6. Elucidate on the effect of Harmful Customary Practices and Cultural beliefs on the Reproductive Rights of adolescents living in any indigenous Nigerian community.
